A MAN named Michael Mulribill was arrested up town on Saturday night by Deputy Sheriff Kinney, on suspicion that he had been engaged in the robbery of a store at Corry, sometime since, and more recently breaking into and robbbing the Post Office at Shamburg. He was examined this morning before Justice Denughy. The evidence shows that he was implicated in the robbery se far as to receive some of the stelen goods, knowing them to be such. He was committed in default of \$300 ball. Some mutilated serip and a quantity of keys, with a large pair of blacksmith's pinebers were found on his person.

TEACRERAY avers that "one of the great tenefits a young man may derive from women's -selety is, that he is bound to be respeciful to them. Our education makes of us the most eminently selfish men in the world. We fight for ourselves; we push for ourselves; we yaws for ourselves. and light our pipes, and say we won't go out; we prefer ourselves and our ease; and the greatest good that comes to a man from woman's society is, that he has to think of somebody besides bimself-somebody to whom he is bound to be constantly attentive and respectful."

THE second new well of Mesers. Dickey & Patterson, on lease 16. Pierson Farm, was eased yesterday, and began pumping oil this morning at about 4 o'clock. and by 9 o'clock was doing at the rate of 100 barrels per day. These gentlemen had great faith in being on the belt, as they put up a double rig, and put down two wells at the same time on Leases Nos. 10 and 16, just south of the Vers and Blake well.

The production of the Pierson Farm is now 350 barrels per day.

THERE is a rumor in town that a prize fight came off at the Rattlesnake School House, on the Plumer road, between a man by the name of Mace, and another, whose name is not mentioned, for a purse of \$1,000. It is said that Mace whipped his antagonist. If there is any truth in this story, the matter has been conducted very quietly, but we are inclined to doubt the whole story.

GENTLEMEN this spring will wear coats with a wide rolling collar, cut away to some extent and about as short as usual. Vests will be mostly single-breasted, open lew enough to admit a fair view of the shirt besom. Pants will be as snug in the leg as ever. The new spring overcoat is something between the regular overcoat and a

Tue new well of Dickey and Patterson now carries the breem of the Pierson Farm, It is doing about sixty barrels per day. The Vera & Blake well, No. 1, was doing about sixty barrel per day a week ago, and has fallen off in production just about one barrel per day.

The Philadelphia North American gives the following startling intelligence:

He was held to bail to appear at the April term of the Court of Quarter Sessions in the sum of \$500. Mohr charges Morrity, an importation from Chatham street "ebeap bargains in clothing mine tear," with forestalling him in regard to rent of premises occupied by Mehr. He also charges the "sheap clothing" man with striking the first blow in the "little mill" which ensued on Thursday evening, and which resulted in his being whipped.
